

Press Release: Metrohm Reveal 2010 Products & Applications

Date: 15th February

Metrohm have revealed their new range of products and application solutions. Innovative new instruments and software in Titration, Karl Fischer, Automation, Ion Chromatography, Electrochemistry and Process and Environmental Analysis form the 2010 portfolio that include:

Touch –and-go Titration

As powerful as a PC, smaller than a Netbook and as easy to use as an iPhone – these are the main features of the 900 Touch Control. Users of Metrohm’s new benchtop control device start their titrimetric analyses with a single touch. 16 million colors provide for a brilliant visual experience and due to the device’s network capability the full range of laboratory data communication possibilities is available.

A new Dimension of Separation Columns

The new 2 mm column features a high capacity anion exchange column with Metrosep A Supp 16 (100, 150 and 250 mm length), increased detection sensitivity and less eluent consumption.

New Software

MagIC 2.1 is the latest version of intelligent ion chromatography software, simple and intuitive operation, it integrates Metrohm’s latest generation of IC systems. For titration the new version of *tiamo*, *tiamo 2.2*, provides even more functionality.

Read the 2010 New Products Brochure for the full range of products and applications that will be available in 2010.

Note to Editors:

Metrohm UK Ltd is the UK distributor of Metrohm AG, the leading manufacturer of Ion Analysis Instruments.

Metrohm is synonymous with potentiometric titration, Karl Fischer titration, ion chromatography and voltammetry solving your analytical chemistry problems with quality instrumentation and support services in the technologies of POTENTIOMETRIC TITRATION, KARL FISCHER TITRATION (moisture analysis), ION CHROMATOGRAPHY, VOLTAMMETRY (trace analysis), On-line & AT line analysis and VISCOMETRY. Set up in 1995, Metrohm UK serves the key markets of the UK including the chemical, petrochemical and pharmaceutical industries, as well as the automotive and food sectors.
