

Press Release: New Microsite & Brochure

<<surface.metrohm.com>>

Date: 7th September 2010

Metrohm has been a solution provider to the surface finishing and electronics industry for many years. The new brochure «[surface finishing](#)» presents instrumentation and applications on quality control of process baths applied in surface finishing and PCB production – including monitoring of waste water. The brochure can be ordered free of charge and is also available on the webpage surface.metrohm.com

«Surface finishing» covers the entire production chain featuring proven wet-chemical methods to control key processes and parameters in functional and decorative coating:

- Control of basic chemicals and raw materials
- Metals as main components of electroplating baths
- Main and secondary components of electroplating baths
- Monitoring of waste water and process water

Methods covered include pH measurement, titration, ion chromatography, voltammetry, atline and online process analysis. Solutions for automation and systems for electrochemical analysis in research and development are also covered. «Surface finishing» is an invaluable tool for anyone who is involved in the professional quality assurance in surface finishing and pcb production.

The easiest way to access Metrohm's complete know-how on process control in surface finishing is a click on surface.metrohm.com. Downloads are free of charge.

Note to Editors:

Metrohm UK Ltd is the UK distributor of Metrohm AG, the leading manufacturer of Ion Analysis Instruments.

Metrohm is synonymous with potentiometric titration, Karl Fischer titration, ion chromatography and voltammetry solving your analytical chemistry problems with quality instrumentation and support services in the technologies of POTENTIOMETRIC TITRATION, KARL FISCHER TITRATION (moisture analysis), ION CHROMATOGRAPHY, VOLTAMMETRY (trace analysis), On-line & AT line analysis and VISCOMETRY. Set up in 1995, Metrohm UK serves the key markets of the UK including the chemical, petrochemical and pharmaceutical industries, as well as the automotive and food sectors.
