

Press Release: pHit kit – give your pH electrodes a treat!

Date: 20th August 2010

pH measurement has always been a nontoxic analytical method. But what about the cleaning and regeneration of pH electrodes? Are you still using a toxic and dangerous etching method? [pHit kit](#) is a better alternative. Give your electrodes a treat!

Metrohm's «pHit kit» contains all you need to clean or regenerate your pH electrodes the gentle way. The «pHit kit» box contains:

- A step by step description of the cleaning procedure
- 50 mL cleaning solution
- 50 mL 3 M KCl electrolyte solution
- 50 mL storage solution
- 2 electrode vessels

Give your pH electrodes a treat with «pHit kit». Benefit from reliable results and extend lifetime of your equipment the gentle way.
